

Defensive Driving Course's

Guaranteed to **Reduce the Road Toll**

Learners – Seniors – Fleet – Disabilities

Idrivesafety developed Australia's most effective and advanced defensive driving courses. Globally researching crash causality, effective delivery methodologies, environment selection, curriculum development and the only acceptable measurement of success- ZERO crash/injuries.

- ✓ Our aim using coaching methodologies is for you to be an active road user not a passive consumer who steers managing only forward, it's a significant crash causality that's easily changed.
- ✓ Research shows drivers were not taught a process that manages risk for each road user interaction
 - Crossroads – side impact crashes
 - Lane changes - rear end crashes
 - Roundabouts – rear end and side impact
 - Traffic lights - head on side impact and rear end crashes.
 - Continuous Partial Assessment or multitask.
 - Manage all road users, injuries do not care who was at fault!
- ✓ The problem is not the solution.
- ✓ I don't know what I don't know.
- X instruction taught you to listen not learn.

What if?

Vision Zero

Drivesafety

1. Don't "blame drivers for crashes" When they were never taught a safe process for each road user interaction. instruction & track days avoiding safety cones is not a solution.
2. Idrivesafety provides research proven road user interaction processes that enable drivers to manage risk regardless of fault, managing all road users & a safe process.

WE KNOW WHAT THE MOST COMMON CRASHES ARE AND WHAT THE CAUSALITY IS!

SO WE BRIDGED THE GAP BETWEEN THEORY AND PRACTICE WITH ACTIVE SAFE SOLUTIONS FOR ALL ROAD USER INTERACTIONS.

Learn Patience,
don't become one

Don't look
won't see
