

A DISABILITY IS NOT A DISABLER @idrivesafety.

Idrivesafety empowering personal growth, job opportunities, social inclusion, and independent lifestyle options.

□ **Learner Permit Test.**

- ✓ A Long & Successful history.
- ✓ 1on1 training with Australia's leading Neurodiverse Coaches.
- ✓ Idrivesafety coaches interpret the questions & ask in a methodology tailored to each clients learning style.
- ✓ Empowering participants to not only! understand the Question? but! stimulate a correct answer, that's stated by participants in their own words.
- ✓ Participants who have completed learner permit training with idrivesafety have shown significantly lower anxiety when commencing driving.

□ **Driver Training Programs.**

- ✓ Australia's most successful NDIS driver training programs.
- ✓ A Disability is not a Disabler, it's just a learning style.
- ✓ Autism, Asperger's, Anxiety, Acquired Brain Injuries ABI, Learning Difficulties are not a Disabler @idrivesafety.
- ✓ **Each participant is issued a 70-page "5 Star Driver Education Handbook" containing idrivesafety's award winning curriculum, qrcode links to 100s of real training videos, road law updates, parental help.**
- ✓ Idrivesafety has Australia's highest trained specialised Coaches who receive 2.5 years training with ongoing Professional Development in eLearning and Driver Coaching.
- ✓ Our entire fleet of 5-star cars are fitted with the latest modifications for those who need them to successfully drive, (hand Controls See link for full list')

- **i.e. artists and engineers learn differently but drive on same roads**, so we teach them differently, the outcome remains the same, "Idrivesafety".

□ **Hazard perception Test Courses**

- ✓ Outstanding history of success.
- ✓ 1on1 training with Australia's leading Neurodiverse Coaches
- ✓ Idrivesafety coaches interpret the questions & ask in a methodology tailored to each clients learning style.

[Who is Idrivesafety? \(National NDIS Provider\) a Not-For-profit org](#)

- idrivesafety researched & developed over 7 years a 5 Star Driver Training System. Releasing to market in 2014 Australia's most successful driver education initiative in 50 years. Delivered to Neurodiverse & Neurotypical Learners, Fleet & Seniors in a coaching methodology tailored to each clients learning style with a pedagogically aligned curriculum delivered in a Graduated Education System (GES). The results are guaranteed to create drivers who reduce the road toll.
- With a successful history that empowers, engages & motivates NDIS Participants across Australia. Impacting social inclusion, job opportunities, personal growth, and independence.

Why & What do we do?

Our aim is to offer equal opportunities to gain a driver's licence to all whether your Neurodiverse or Neurotypical. We work with Participants their families, careers, Occupational Therapists and providers delivering 5-star driver education programs with a proven record of success that has revolutionised the disability driver training & driver licencing industries across Australia.

What is a 5-star Driver Education Curriculum

1. **Idrivesafety Coachⁱ** Australia's highest trained driving coaches, engaging, encouraging, challenging and motivating participants. Reimagining theory!
 - a. Developing active participants not passive consumers.
2. **Delivery methodologyⁱⁱ**. Client-centred learning. We do not homogenise the delivery, 1 on 1 coaching allows us to identify each client's learning style & match the delivery methodology to the client. *Artists and engineers learn differently.*
3. **Curriculumⁱⁱⁱ**. "A safe, detailed & structured pedagogical curriculum."
 - a. 3 foundations, 17 core subjects, 48 modules & 839 units of competency-based education & Training CBET.
 - b. Delivered in a Graduated Education System. GES
 - c. Every process is detailed allowing theory to become **Knowledge**, repeating each process until a **Foundation** is formed then applying in a variety of same interactions (i.e. roundabout level 1) at variable locations until **Automated with distractions.**
4. **eLearning programs** for learner permit, hazard perception test & supporting the learning journey. Real footage not Fake/simulation. 1on1 remote learning. The brain is empowered as learnt becomes learned with real road user footage supporting theory transfer.
5. **Calibrating Success.**
 - a. Success is initially measured against a coach's ability to facilitate each participants ability to transfer knowledge of a process into an action that's self-calibrated.
 - b. Success is ultimately measured against each participant achieving ZERO INJURIES! the only acceptable measurement of success post licence.

Idrivesafety has a research driven solution to "The problem"

Australian research shows diving instruction has for 50 yearsⁱⁱⁱ been an inadequate system to train learner drivers. A made up system that uses tips and tricks to pass a test is not a training system, no matter how many times its repeated, in fact, it has shown to be a crash causality in teenage drivers who think they know?, with a disparaging and negative impact when training disabilities or Neurodiverse learning styles. "Driving Instructors receive as little as 2hrs in car training", have **NO** curriculum or variable delivery system, just laps around a test route, everywhere I drive is technically a test route, same? Same? but different!

Our vision statement: If you're not learning! It's your coaches' fault¹. We will change our delivery to match you. Learnt is not learned until it produces a safe action and each action is automated regardless of situations and distractions.

Driver training delivered in off road courses has been shown by research to have little to no impact on road safety, idrivesafety do not use off road circuit training. aim is Vision zero (www.visionzeroinitiative.com)
