

## Guaranteed To Reduce the Road Toll

Effective Education Minimises the Risk

Background, idrivesafety are on the 26/11/23 will commence stage 3 of a 5-stage program to reduce the road toll in Cambodia through effective driver education, reducing deaths and injuries, its impact on families, road trauma health system whilst increasing jobs and empowering the disadvantaged, is the foundation for a generational change.

- **Stage 1**, scoping review in Cambodia in conjunction with Government of Cambodia, Camsafe NFP, conducted by Dr Ray Shuey AM. APM into driver education and what is possible. **Completed**
- **Stage 2**, following an initial selection process, funded 2 highly educated and dynamic young Cambodian influencers to come to into Australia,
  - Trained in coaching methodologies, tailored to match learning styles, introvert, extrovert, autism, Asperger's, Engineer, artist, science, technology, Brain injury and lower IQ, same outcome different journey.
  - Trained and passed Victorian driving licence test, in 30 hours,
  - Trained and passed cert iv in driving instruction within the same 30 hours as used for driving licence test preparation.
  - Trained to deliver Idrivesafety 5 Star curriculum (See below), a pedagogically aligned curriculum delivered in a graduated education system, a safe process for every road user interaction, standardised driver education. **Completed**
- **Stage 3** (Nov 2023)  
Idrivesafety delegation (Dr Ray Shuey AM, APM, Mr Craig Waters) will be extending the mission into Cambodia from Nov 26<sup>th</sup> to Dec 2<sup>nd</sup>, 2023, promoting Australian driver education as a road safety countermeasure, licencing and crash reducing marketing systems, our partners on this project are rotary international, Belmont Victoria and Phnom Penh Cambodia, Camsafe NGO/NFP Cambodia, Government of Cambodia. Vic Roads and the Transport Accident Corporation TAC will be providing support via online presentations and material support.

## Guaranteed To Reduce the Road Toll

Idrivesafety delivers 5-star Driver Education Systems, developed globally, initially over 7 years, the result is a world leading curriculum and 70-page handbook focused on a graduated education structure.

- Pedagogical curriculum
  - 3 foundations
  - 35 subjects (every road user interaction has a safe manageable process)
  - 52 modules
  - 962 units of competency-based education & training

Idrivesafety deliver 5 Star driver education to:

Learners, Disabilities, Fleet and Seniors with a long and highly successful history as a provider to the NDIS and TAC, the results empower, encourage, support, challenge & save lives,

Why?

- 5 Star drivers are reducing the road toll everyday! Everywhere, even in a one Star car on a 1 Star Road.
  - The reverse is not a safe system with a vastly increasing road toll,
  - Cost blowouts with unachievable timelines to make every car and every road crash redundant, in most cases impossible especially whilst new roads currently being built to 2 Star standard across expanding suburbia.
- Impacting generations, the health system, increasing job opportunities, international recognition of licensing standard and social inclusion.
- Funded by idrivesafety and its parent, International Safety Foundation NFP orgs,

Government support; Thank you to our partners Transport Accident Commission (TAC) VicRoads, Victorian Government, the Honourable Christine Couzens MP, Stuart Grimley MP past, Dr Ray Shuey AM, APM. The entire team at idrivesafety & board of directors at ISF,

- **Stage 4** will be to bring a delegation from Cambodian Government into Australia with an aim to scale up the licencing and training bond between the 2 countries.
- **Stage 5** support the program remotely, assisting with driver education licencing recognition internationally.

***The only acceptable measurement of success is ZERO.***

Craig Waters &  
Dr Ray Shuey AM, APM
