Following 7 years global research, Idrivesafety is Australia's leading Not for profit driver education organisation having shifted the paradigm when driving with a disability to driving beyond a disability, delivered as a 5 Star driver education system. Research¹ has shown the disabler in learning to Idrivesafety and passing a driving test is ineffective instructional training systems not a person's learning style &/or physical disability.

Idrivesafety has an unheralded history of success. With definitive differences using a globally designed 5 Star driver education system:

- Delivered as a **Graduated Education System (GES)**
- **Curriculum 892 CBET units**, a process for every road user interaction. (only 1 in Australia)
- **eLearning** linked through QR codes with live and dynamic training videos delivered by Coaching team.
- **Delivery methodology** is coaching, changed to match each client's learning style.
- **Measuring success** against coaches' ability to transfer knowledge to learned,

empowering an ability to succeed and enjoy the personal rewards associated with **independence, job opportunities** and **social inclusion**.
