

**Thank you** for selecting idrivesafety's award-winning Structured Driver Education System. The driver education curriculum & coaching methodology are delivered as a graduated education system, with research & evidence-based processes for every road user interaction. The curriculum© has 52 modules & 900units of Performance Based Compliant Training PBCT, proving education is the greatest road safety countermeasure.

Neurotypical & Neurodiverse personality styles, same outcome different journey, Introvert-Extrovert, Artist-Engineers, Science-Psychology, Anxiety-Risk taking are all just personality styles can learn & drivesafety.

We support the research & evidence that shows the causation for crash risks is not a human's inability to learn to drivesafety, it is the engineering managed instructional system that is not training or testing a standardized structured curriculum. Instructors receive as little as 2 hours training.

You will see and feel the idrivesafety difference in as little as one session. Each completed competency & module will deliver a foundation that enables you to be competent, the foundation for safe driving. Confidence is not a required outcome. I can be very competent whilst not being confident, the opposite is a risk

**Our training philosophy: If you're not learning! It's your coaches' fault<sup>1</sup>. Idrivesafety coaches continuously & seamlessly change their delivery to match each clients learning style and needs. Learning is not learned until it causes a safe action, and each action is automated regardless of situations and distractions.**

## **TRAINING PACKAGES**

### **Platinum Package**

- ✓ **30 X 1 hour training sessions<sup>3</sup>.**
- ✓ This package provides a real solution for parents; every road user interaction process is trained to a standard for you, from foundation through to level 3 standards.

- ✓ Parent/Supervising driver involvement is practicing whilst everyday driving with this package.
- ✓ Every road user interaction is trained with a safe process, even when others do not.
- ✓ All training is conducted in live and dynamic environments
- ✓ No last-minute issues before test, every drive is a test! can Idrivesafety everywhere, every day.
- ✓ Idrivesafety offer Australia's only real driver education system, finally a solution every parent wants and needs, safe teenage drivers.

## **Platinum + Package**

- ✓ Comprehensive education system(120hours)
- ✓ Delivery of the entire curriculum, 52 modules. Australia's most effective driver training program. This develops a safe driver even when others are not, the outcomes are literally life changing.
- ✓ Defensive driving course
- ✓ Country roads a safe process that manages risk
- ✓ Night driving, Distractions & high-risk processes
- ✓ City driving (Victorian Hook turns & Trams)

## **Other Training Options**

Structured Driver Education based on needs, pay as you go PAYG.

Parents/supervising drivers/instructors Parents pass on 7% of their actual thinking, their driving is automatic, just because I play footy does make me capable of teaching it. Research from 16k learners shows the focus is on confidence not competence, without a structured curriculum it is difficult to know what to teach at each interaction. Many parents tell what to do & when to go, which is the same as tips n tricks to pass a test used by instructors. The outcomes from that system are? **high serious crash rates and personal injuries**. The Instruction system has no curriculum with each instructor making up their own version for how to pass the test, that is not measuring a process to pass????

Research & evidence shows learners are very capable of learning to drivesafety, but the driver training and testing system needs to be effective! The engineering/instructor and road safety system blames teens for crash rates and poor driving, even though it was the engineering/instructional system that the teens learnt and graduated from after passing the engineering/instructional test. Idrivesafety has the solution.

## **Expectations of an idrivesafety Driving Coach:**

1. Encourage, analyze, empower & challenge each client individually through their journey.
2. Provide a comprehensive driver training system that when completed enables clients to:
  - a. Successfully drivesafety in every road user interaction, managing distraction
  - b. Competently drive injury free regardless of their personality style.
3. Deliver each process in a coaching methodology<sup>2</sup> matched to your learning style.
4. Select appropriate live and dynamic environments tailored to the outcomes.
5. Deliver the program as a Graduated Education System (GES)
6. Challenge your foundations in increasing complexity, applying client centered learning ensuring each client learns and develops at their own pace, only the outcome remains the same!

## **Expectations of our clients:**

1. Actively participate.
2. Ensure you manage your training team including any supervising drivers.
3. Complete homework as practice time allows. Bring your HANDBOOK to all training sessions.
4. Handbook issued to manage the journey

We do a comprehensive drive around Melbourne; hook turns, trams and the additional risks in this environment. The brain needs to manage at a higher level.  
Our abs course has shown remarkable crash reductions in all participants, live and dynamic  
The total delivery will be based on the hours allocated. <sup>1</sup>http://www.visionzeroinitiative.com/  
Based on your role conditions being accepted and carried out  
Hermes report 2011  
this is a minimum and changes to meet clients needs and circumstances  
All platinum clients have remained crash/injury free in the first 6 months of driving, not just within Australia, but globally, this has shown to be the most dangerous time for new drivers.  
Our abs course has shown remarkable crash reductions in all participants, live and dynamic
