

Senior Driver Services & OT Assessments

Call: 1800 956 999.

Email: info@idrivesafety.com.au

Idrivesafety Researched & Developed a comprehensively different & very successful approach in assisting Seniors to retain or regain their Licence, ensuring they keep it for significantly longer, impacting access to social events, independence & health and wellbeing.

Idrivesafety, Victoria's most successful Senior Driver training & Occupational Therapist assessments, “literally Life changing”

Services: (call admin to discuss or book)

- ✓ Senior Community group Road Safety Presentations
- ✓ Male and Female presenters
- ✓ Retirement Villages guest speakers
- ✓ Probus, rotary clubs & Men’s Sheds guest speakers
- ✓ **Occupational Therapist Driving Assessments**

With driving becoming more complex because of aging combined with road rules constantly changing, the road markings fading, smaller lanes, bigger cars, aggressive drivers and faster ebikes and scooters? A simple solution is available with idrivesafety.

Idrivesafety provide takeaway handbooks to every attendee, detailing the latest road rule changes, plenty of time for questions, answers & discussions changing fake into real.

With high numbers of seniors being notified by Vic Roads to undertake an assessment and then failing! the Occupational Therapist Driving Test, NOT because of a senior’s inability to learn simple changes in everyday driving processes and meet the standard required, But! as Research shows! an ineffective instructional delivery system that focuses on “tell not teach” & “listen not learn” with no evidence based solution, just the problems & no assistance to change bad habits before the test.

Just because I drive every day & have not had a ticket does not mean I will meet the standard required to pass the test! It’s easy applying minor changes when the education is delivered by idrivesafety Structured Driver Education System, 16k successful past clients are our evidence. Call or email admin to discuss booking a free presentation.
